

## Spring 1 Year 2 Home Learning Grid – Protecting Our Oceans!

|   |   |  |
|---|---|--|
| Research each ocean and write an interesting fact about each.   | Write a persuasive letter to try and get more people to help look after our oceans.                             | Investigate why our oceans are in danger. Make a poster to teach other people.   |
| Write a poem about a sea creature that interests you.   | Draw and label a map of our world's oceans.   | Make a 3d model of the world or a sea creature. Try use 3d shapes we have named in maths.  |
| Design a machine that could help protect our oceans from litter and write instructions to say how to work it. | Use food labels to explore on a map where the food comes from. Which oceans have they crossed to get to the UK? | Reuse plastic to make something useful.<br>Reduce the amount of plastic you use – list 2 ways you could do this.<br>Recycle your waste.<br>Identify which packaging can be recycled and sort it into groups. |

Please choose and complete at least three activities this term. Bring them in to class and share your learning. Photographs can show you in action!
